### Professional Experience:

2000 – Present  
Playas de Tijuana,  
B.C., Mexico

Founder and Chief Medical Officer  
Hope4Cancer Treatment Centers (*formerly* Hope4Cancer Institute)

- **Established and expanded cancer treatment center.** In the year 2000, founded, managed and promoted self-funded treatment center with 24x7 full service, in-patient care (4 beds). In 2010, executed first expansion of treatment center to a capacity of 10 in-patients, followed by a second expansion in 2014 to a capacity of 21 in-patients and 15 out-patients. In this time period, census of patients on 2 or 3-week programs has increased from less than 100 to over 500 per year.
- **Established treatment philosophy and protocols.** Created a treatment philosophy known as the “Seven Key Principles of Cancer Therapy™” that became the basis for the development of non-toxic treatment protocols designed to help patients overcome the odds of recovery from cancer while maintaining or improving their quality of life.
- **Innovative introduction of non-toxic treatments.** Researched and pioneered numerous treatments with a high safety index, alongside time-tested natural therapies, within the purview of the Seven Key Principles of Cancer Therapy. These therapies included Sono-Photo Dynamic Therapy, Local Hyperthermia, Oncolytic Virotherapy, AARSOTA Bioimmunotherapy, Sunivera Immunotherapy, Salgena Therapy, Maragen Therapy, Garden Food Plan®, and others.
- **Innovation in non-invasive diagnostic, assessment, and treatment devices.** Implemented the use of non-invasive diagnostic, assessment, and therapeutic devices including the pioneering use of ultrasound to detect tumor blood flow, thermography, biofeedback, bio-resonance, lasers, pulsed EMF, and LED light.
- **Representation at conferences/workshops worldwide.** Invited to present at hundreds of conferences/workshops within the United States and internationally.
- **Representation at online events.** Represented company in a wide variety of online events including docuseries, recorded training modules, interviews, and live webinars.
- **National and international business development efforts.** Established numerous relationships with doctors, scientists, and treatment inventors and providers, both nationally and internationally, with the purpose of finding the latest, effective non-toxic treatments for cancer. Key relationships includes those with entities in Germany, Japan, Latvia, Canada, Spain, Thailand, Colombia, and Cuba.
- **Research and development efforts.** Led research and development efforts into the identification of new medical treatments and protocols; guidance and oversight of collection and analysis of medical data and maintenance of long-term records.
- **Patient education.** Recognized importance of empowering patients with a strong understanding of the Seven Key Principles of Cancer Therapy through the creation of a variety of educational materials, as well as group and 1-on-1 counseling.
- **Mentoring of medical staff.** Ongoing mentoring of doctors, nurses, scientists, and other staff on the basics of the treatment philosophy as well as hands-on practical guidance. Leading the creation of a medical education program in integrative medicine.
- **Executive, administrative and legal responsibilities.** Overall responsibility for the administration and legal departments of treatment centers. Oversight and management of due diligence process required for the registration of treatments and products in Mexico.

2015 – Present  
Cancun, Q.R.,  
Mexico

Founder and Chief Medical Officer  
Hope4Cancer Treatment Centers (*formerly* Hope4Cancer Institute)

- **Established and expanded treatment center in Cancun.** While founded on the principles of the original treatment center in Tijuana, the Cancun treatment center was uniquely designed to provide out-patient care while allowing patients and their families
